Better Together. By design, we are a small, close-knit group of partners working together. While others may have teams within a brokerage, our entire brokerage supports one another. Our collaborative approach is unique in the industry and allows us to deliver extraordinary client experiences consistently.

Backed By Experience. While our collaborative approach may be different, for us, it's the right thing to do. Every time our clients access our diverse strengths and competencies, they benefit from 150 years of collective experience and knowledge. When you work with one of us, you work with all of us.

Creative Solutions. We're an independent brokerage run by people—not by boards, not by stockholders, not by algorithms—so we're able to focus on the details of your property and create unique and strategic marketing plans to sell our clients' properties. We believe each home is distinctive and deserves a marketing plan designed to help achieve the maximum value in the shortest time possible.

No Pressure. Ever. We partner with our clients to find solutions that fit their needs, on their schedule. We're in this for the long-haul and are happiest serving our clients' needs above our own.

What We Do Matters. Our partners know they have a responsibility to work as good corporate citizens and as REALTORS®—sticking to and, at times, going beyond the Realtor Code of Ethics. After all, we work and play in our backyards as much as you do yours. Our reputation is a critical element of our success.

We Care More. We're a big-enough brokerage to give you all of the bells and whistles yet right-sized to provide personalized service through the entire process—which is why we pursue every aspect of the transaction with tenacity and creativity while conducting business in a principled manner.

Active Industry Involvement. Seventy-percent of our partners are actively involved in the Cincinnati Multiple Listing Service, Cincinnati Area Board of REALTORS®, the Ohio Association of REALTORS®, and the National Board of REALTORS® to ensure we're up-to-date on technological trends and legislative changes within the industry.
